## Elevating Indian Cooking with Nutrient-Rich Oils

Vimal Oils has been at the forefront of providing superior-quality cooking oils for nearly three decades. Nutrition Retention Technology developed by Vimal Oils is a breakthrough innovation that ensures our edible oils retain maximum nutrients for a healthier cooking experience. The diverse range of Vimal Healthy Oils includes cottonseed oil, groundnut oil, mustard oil, soyabean oil, sunflower oil, corn oil and rice bran oil, catering to the varied culinary needs of Indian kitchens.

Our journey commenced in 1993 with a single refinery with initial production capacity of 50 metric tons per day. Today, we have expanded our production capacity to 1500 metric tons per day with multi-location refineries capturing the Pan-India market.

At Vimal Oil, our manufacturing facility is equipped with an integrated and fully automated plant, meticulously set up by Alfa Laval. With such a world-class facility, the production process becomes seamless, ensuring that the quality of edible oils is maintained to its peak.

# #ChangeforHealth Embrace a Healthier Lifestyle

Explore the transformative potential of changing your cooking oils for a healthier lifestyle. Changing cooking oils regularly brings numerous benefits to your family's well-being because each oil offers unique nutritional advantages. By sticking to a particular oil, you miss out on these benefits. Therefore, it's essential to switch oils to gain the advantages from each one.

Our wide range of NRT-processed oils offers consumers diverse choices. With Vimal Oil, you can choose various oils, experiment with flavours and cater to your family's specific dietary needs. From sunflower's heart healthiness to mustard's rich flavour, explore the unique advantages and embrace flexibility, flavours and health.

## Nurturing Well Being Nationwide

Vimal Healthy Oils began its journey in Gujarat and has since expanded across the Western, Central, Northern and Northeastern regions of India. Our Vimal Oil network now covers 21 states, highlighting our significant growth. This achievement owes credit to our robust distribution network, encompassing over 50 depots, 1500 distributors and an impressive network of over 500,000 retail outlets.

Committed to further expansion, we are pursuing a strategic approach of establishing our presence in untapped, high-potential markets, while also strengthening our positioning in existing territories.

Traditionally known as Kapasiya Tel, it is extracted from premium cotton seeds or Kapas. Vimal refined cottonseed oil is one of the most adaptable cooking oils. With its high smoke point and neutral taste, it excels in all forms of Indian cooking. Whether you're frying, or sautéing, or deep-frying, cottonseed oil is the ideal choice for enhancing the flavours of your dishes.

Cottonseed oil has a mild & neutral flavour profile, allowing it to blend seamlessly with other ingredients and spices in recipes.

Cottonseed oil contains beneficial nutrients such as phytosterols, which can help lower cholesterol levels & tocopherols, which have antioxidant properties.

Vimal Refined Sunhart Sunflower Oil has optimal nutritional balance of Monounsaturated (MUFA) & Polyunsaturated (PUFA) fats. Additionally, it is abundant in natural vitamin E, an anti-oxidant & Omega-6, an essential fatty acid crucial for the body's proper functioning. The mild flavour and high smoke point make Vimal Refined Sunhart Sunflower Oil perfect for frying, sautéing, & deep-frying.

Incorporating sunflower oil into your diet can contribute to a well-balanced & nutritious lifestyle.

**Vimal®**  
**Pure Gold**  
 Micro Filtered  
 Groundnut Oil

Vimal Pure Gold is available in two different variants: Double Filtered Groundnut Oil and Refined Groundnut Oil, extracted from the finest peanuts sourced from Saurashtra in Gujarat. It is commonly used in various cuisines around the world, but widely popular in authentic Gujarati cuisine as well. It is versatile and can be used in various dishes from different culinary traditions, thanks to its mild flavour and high smoke point. Use it for stir-frying, deep-frying, and sautéing, as it can withstand high temperatures without breaking down or imparting strong flavors to the food.

Groundnut oil is rich in monounsaturated fats, which helps reduce bad cholesterol levels and risk of heart diseases. This oil is also a good source of vitamin E, an antioxidant that protects the body's cells from damage caused by harmful radicals.
